

Good Shepherd Lutheran Church acquired 7 acres of land in 1955 to build the church. The Des Plaines Park District purchased 2.92 acres from the church in 2007 and developed the property you are standing on in 2011.

The sale of this property to the Park District was a significant contribution to the recreational and green space in Des Plaines. Connecting the north park area with the rest of Lake Park ensures that the community will continue to enjoy this important resource for many years to come.

Lake Park includes a number of beautiful areas that are enjoyed year-round by everyone in Des Plaines.
